# Artificial Intelligence For All

Are you a VET or C-VET teacher?
Do you use new technologies in your lessons?
Do you aim to improve your students digital skills?

We are looking for you!

AI4all is a transnational project co-funded by the European Comissión. Our **main objective** is to assist VET and C-VET educator in the training of basic digital skills.

To achieve this goal, we are developing an **artificial intelligence system** that will help educators collect data and detect opportunities to use new technologies much more effectively in your classrooms.

This project will contribute **to make digital technologies more efficient for learning and teaching purposes**, but it will also help educators and students **to develop relevat digital skills,** which very valuable for the digital transformation that we are living as society.

How can I be a part of this amazing project?

- **Participate in a survey** about how do you implement digital technologies in your lessons.

- **Become a part of the pilot training course** and learn how to use and implement the AI system that we are creating.

OK, I'm in! What do I have to do?

1. Contact us with your name, surname, e-mail address, name of school and country from which you will be participating.

2. We will write you back with a link to the survey and solving all your doubts.
